Hi Selim, I just looked quickly at the mylars. I noticed there are no references as to where the laterals are to be in relation to the right of way. Can you give us the distance from the closest manhole to the location of each laterial and we can include this information on the plans please? Also, after the plans are signed by the Sanitation District, RPV needs a paper copy of the plans. Thank you.

Hi Ron,

The mylars for the sewer for Tract 50666 were dropped at the City this morning. What time should I pick them up tomorrow? Let me know

Thank you
Selim Sawaya P.E. / P.L.S.

Hi Selim,

Please Drop them off when you have them tomorrow. My day is full tomorrow and we will need a few hours to review and then sign the plans for you. I should be able to complete a review tomorrow evening and be signed and ready for pickup Friday.

Ron Dragoo, PE
City Engineer

Hello Ron,

The sewer plans are approved and signed by the Los Angeles County. I am going to pick up the Mylar tomorrow. The plans would have to be signed by the City next. The Sanitation District would sign them last.
Would you be able to sign the plans tomorrow if I take them to the City?

Awaiting your news, Please let me know

Thank you

Hello Ron, Hope that you are doing well.

The County has approved the sewer plans for Tract 50666. They are currently processing and signing the mylars. I am told that I should have the signed mylars back by the middle of this week which I need to drop them off at the City for your processing and signature.
After the City signs the plans, I would have to take them to the Sanitation District for the approval and signatures.

How long would it take the City to process the plans?

Thank you
